

Nov. 12, 1979

Dear Jeffrey...I lost Rogo's address somehow, so must send this to him via you, okay?

Mr. Rogo...I would greatly appreciate it if you would slip the following into our book, somewhere:

"My incredible work for the past ten years would not have been possible except for the help of two friends, Millie Miller and George Delavan...because in that span of time I made no effort to make any money, but just concentrated all of my powers on doing miracles. And George and Millie made it all possible to happen.

George Delavan, of Des Plaines, Illinois, spent a couple of weeks with me in Cleveland, Ohio, and witnessed the incredible "Cleveland Miracle" at firsthand. (I controlled the City of Cleveland, Ohio, with my mind, causing weird and freakish things to happen, outlined in writing beforehand to scientists.) George has consistently helped me with hundreds of dollars each month for the past ten years, so that I could keep on going with my experiments. My gratitude toward George runs deep.

Millie Miller, whom I've nicknamed "Irish" because she has a typical mick face and temperament to match, has, on numerous occasions, stepped into the breach with earth-shaking help when I needed it most. She made it possible for me to go to Europe and have my brain remodified by my UFOs (SIs); to go to Egypt in order for the UFOs to join my brain with the ancient Egyptian Power there among the pyramids in Giza valley; she has purchased invaluable tools for me that I could not afford. She accompanied my boy, Beau, and I, down to "Haunt One" in northern California, to rendezvous with UFOs there.

In short, Millie and George are the two best friends that Ted Owens (PK Man) has ever had, or probably ever will have.

~~XXXXXXXXXXXX~~ A newly-acquired friend here in Vancouver, Washington, is "Pixie", a tiny, blonde imp of a female, bubbling over with personality and intelligence. Pixie gave our family her old van to help us out, since we had no wheels and bailed us out of several big jams when we needed help the most. Pixie and I have spent dark nights in isolated places rendezvousing with UFOs which have come right over us, and as she returned to her home on a long drive UFOs followed her car! Pixie is the finest improvisational jazz dancer that I've ever seen dance; compared to Pixie, Lily Christine The Cat Girl is a beginner!

Anyway, I have respectfully requested Jeffrey Mishlove and Scott Rogo to tell their readers about the best friends of Ted Owens (PK Man) as outlined above, and hope that they can do so.

Ted Owens (PK Man)

*swens*
