

interested a new book is out having
a description of my work in it:
"UFO Encyclopedia" by
Margaret Sachs.
(Huge paperback.)

June 2, 1981

Scientists and Contacts ...

D. Mishlove and D. Scott Rogo have
written a true and accurate account of
my work.

Their book... has been unfairly blocked
from being published. (My UFOs say the
matter is invalid, and I believe them.)
My UFOs have communicated tonight... that if
the Mishlove/Rogo book about my work
is not truly bought for publication this summer
and published... then they, the UFOs, will destroy
the U.S. Stock Market, far worse than in 1929.
The UFOs have my permission.
