Spokane, Wash., Fri., April 1, 1983. THE SPOKESMAN-REVIEW

Pastors claim God using Helens to make his point

LONGVIEW, Wash. (AP) — Two ministers in cities near Mount St. Helens say God is using the volcano and the economy to tell Longview and Kelso residents to be more religious, charitable and caring of their families.

"We feel that God is using the Spirit Lake flood situation, the river, and the mountain and the bad economy to get people's attention and get the community back to its spiritual moorings," said The Rev. Dave Minor, pastor of Columbia Heights Assembly of God Church in Longview.

He and The Rev. Sam Poe, pastor at the Bible Truth Christian Fellowship in Lexington, see a message of fire and brimstone in the volcano's eruptions.

"We're not saying it's doomsday. We're standing on the brightest day in the history of these cities if we listen to what God has to say," Minor said.

The cities along the Cowlitz River are within 45 miles of the volcano that erupted with the force of a hydrogen bomb on May 18, 1980. While living with the threat of more eruptions, about 45,000 people in the valley are threatened with a wall of water that would rush down the Toutle and Cowlitz rivers if a debris dam breaks at Spirit Lake.

The Army Corps of Engineers installed an emergency pumping operation on the lake near the volcano to lower the lake level until a permanent solution is found.

The timber-dependent area also has been blasted by the recession.

Although geologists and economists believe there are other explanations for the recession and the volcano, Minor says, "I believe God is in control of those things."

Poe says the communities have "singularly been blessed by God" in the past, but have strayed from the Christian ideals of their Christian founders.

SCIENTISTS AND CONTACTS

I believe that this newsclip is remarkable and extraordinary.

Both church ministers say that they believe that "God" is using volcanic explosions and bad economy (two very dissimilar things) to bring a "message" to the people. That "God" is using the nature catastrophes AND the bad economy to "get the people's attention"...

Of course, this is EXACTLY what my work has been about...and what I have been telling you about! My UFOs are "using" both of these, and other, mechanisms, to get the people's attention, and the government agencies' attention!

And the ministers are actually on the right track! They know nothing about my UFOs...but my UFOs have told me (and the fact is published) that they work for God...they and Nature, as a team.

The further point that the ministers make is that the "demonstrations" from "God" are to get the people back to "spiritual moorings"...and teach the people to be "more religious, charitable, and caring of their families." They are accurate here, too.

Remember...the point of my UFOs causing an attack on the Economy, higher ups, etc., etc., is to pressure someone, somewhere, to provide their Base...from which all of the negative, dest ructive mechanisms of the UFOs will be dismantled...and replaced by positive, helpful mechanisms...which will actually change human nature world-wide toward peace, brotherhood, love for each other, block wars, etc.

It is true...and if you do not believe me, then perhaps you can believe the two ministers...whom I have never met and do not know..."God" (the force my UFOs work for...and whom Dr. Mishlove describes as "the Phenomenon" in his book about my work, which has not been published) is indeed using the Mt. St. Helens volcanic explosions, and many other catastrophes, to "make the point."

UFOs attack scientists

Sagan's recovered

SYRACUSE, N.Y. (AP) — Astronomer CARL SAGAN has made a "full and complete" recovery from complications that followed an appendectomy and has been discharged from a hospital. Sagan, 48, developed internal bleeding after an emergency appendectomy March 19 at Tompkins Community Hospital in Ithaca, New York. He was transferred to Upstate Medical Center in Syracuse two days later, and discharged Friday. Hospital spokesman Robert Vaccarelli quoted Sagan's wife, ANN DRUYAN, as saying the Pulitzer Prize-winning author was "anxious to get back to work." Sagan, a Cornell University professor, was host of public television's popular "Cosmos" series.

SCIENTISTS AND CONTACTS

As I told you not long ago, my UFOs are now attacking scientists, because scientists have actively contributed to the blocking of the UFOs acquiring their Base, and have attacked me.

The AMA attacked me in Ft. Worth, Texas, years ago (falsely)...and have since paid heavily forit, losing heavy membership and having many major things go wrong for them.

Anyway, see the above newsclip. Sagan is the first scientist to be attacked by my UFOs, as far asI can determine from my limited approach to newspapers. An appendectomy is a comparatively simple matter; just a minor thing...and certainly no complications should stem from it. (I can speak with some authority because I stood beside surgeons operating for about two years at the Gaston Hospital in Dallas, Texas, as medical secretary, and took shorthand notes as the surgeons operated. So I know what I am talking about.)

Hynek and several hundred other scientists now can expect an attack from my UFOs.

Before closing, let me say that I expect a major earthquake on the West Coast soon... nothing less than 7 on the Richter and perhaps an 8. Destruction will be devastating. Also let me tell you that all of the catastrophic explosions around the U.S. that are taking place are being caused by the UFO Sun Attack...the earth being heated from its core outward, plus rays being diverted downward by the four giant UFOs around Earth.

Dr Jeffrey

I am now trying to get the Australian government to bring me back to end the worst drought in their history in exchange for my [illegible] FOR Basil.

If I am successful, then I will pay you and Scott $50,000 each for your book, and will get it published myself.
