SCIENTISTS

My geopsi (new word that I have coined, meaning psi-control over geographical areas) job is now finished for my UFOs.

I had just returned home from pawning some things to pay some bills when M. called from Vancouver and said that she was sending me to Hong Kong in order to complete the last part of the UFO jigsaw puzzle. You will recall that it was necessary for me to get to Peru so that my UFOs could control that Continent. All that was left in my work with the UFOs then, after I went to Peru, was to get to Hong Kong so that my UFOs could control Russia and China. A biggie. It nearly ruined me, but I got there and back. So that was done. The only thing left now...bigger than anything...is the ten-million dollar UFO base, from which I can, working with other-dimensional powers and my UFOs, telepath psi-force through the "psi-pipelines" that I have set up on other continents...to bring about constructive, helpful results everywhere for the human race and Earth itself.

Now let us proceed to my current report to you.

First, let me refer you to my file to you of February 12, 1986, in which I pointed out to you that I informed Dr. Mishlove before the space shuttle exploded that the UFOs were going to cause such. Also I told him that my UFOs were going to cause an earthquake on the West Coast, 8-10 on the Richter. (See enclosed.) Now the earthquakes on the west coast are slowly building up to major intensity. Not only must the tektonic plates slip beneath the west coast, but elsewhere...like the mechanics of a swiss watch. Note the Georgia quakes on p. 4.)

My UFOs explained to me, in simple (at this point my back up

typewriter broke down, so am here now with two typewriters rendered hors de combat by some odd force; it seems. Queens.)

Anyway, my UFOs explained to me, in simple terms, how an earthquake is triggered. When I was a child my grandparents gave me a

Chinese Box, which was composed of many small wooden panels. To open the box, one had to slide one certain panel forward...then a second certain panel elsewhere...then a third panel, at which time a small wooden "trigger" was exposed behind the panel. One pushed downward on this trigger and the Chinese Box sprang open...i.e., the drawer inside sprang out. In like manner, the plates slip underneath California...finally the plates slip one more time and the "trigger" is exposed and sprung...big earthquake. This is my own theory...some of you might think it comical. Oh my UFOs gave me the info. Whichever. Now, to the work at hand.

In my file to you of Feb. 12, '86, paragraph (3) I informed you that I had warned Dr. Mishlove that a shuttle would be exploded by my UFOs. They did, in fact, explode it. See p. 10 re "unusual wind" then more important p. 9 re "wind shear". Put simply, the shuttle was struck by terrific force as it took off, then as it cleared the force into slow speed the disparity destroyed the shuttle.

In the same paragraph I warned Dr. Mishlove that my UFOs would cause an 8-10 on the Richter earthquake in California. (This was before any earthquakes happened.) On Pages 2, 3 and 4 you can read what has happened since then. My UFOs have tried to give people and the govt. time to give them their Base...used these relatively small quakes as warnings...but the Base has not been forthcoming. Therefore...I can only assume they will strike with the Big Quake. Just up ahead, in time.

On p. 5, translate "El Nino" into my UFOs Sun Attack, which it is, indeed, factually. They (scientists) guess that whatever El Nino is, it will not be as tough in 1986. My UFOs have stated that their effect increases exponentially, with time. That means that 1986 will be far worse than 1985. What a pity that my UFOs cannot have their base, on their terms, and turn all this chaos around. That, put simply, is the hame of the game.

On p. 6 is more on the Sun Attack...plus an article on another earthquake near Lima, Peru, where I was not long ago.

Ps. 7 & 8 bear on the terrible damage my UFOs did to NASA.

Ps. 9, 10 and 10½ point out that "wind shear" (force) sprung or broke the joint that wrecked the space shuttle.

Ps. 11-17 point out further the great damage done to NASA by my UFOs.

P. 18 has an article describing the great pickpocket activity (remember they got my moneybelt off me, somehow, when I flew to Lima, Peru.

Ps. 18-28 point out the results of the UFOs Sun Attack.

P. 26 has a clip re the penetration of killer rebels into Lima, Peru, that robbed a bank and shot down a bunch of people just blocks from the hotel I stayed in while there.

In closing...why not have a voice-stress-analyzer and operator seated just past the metal-detector and have each passenger read a card out loud: "I am not carrying any weapons onto the plane...guns, knives or explosives...and do not plan to cause any trouble on the plane while I am on it."

Ted Owens (PK Man)

SCIENTISTS

(1) Years ago, while living in Philadelphia with Martha, my wife, and Beau, our baby...one night a roaring fire sprang up on the floor below and the firemen came and extinguished it. The Fire Chief came to me and told me that the fire had been deliberately set...in the room directly underneath our room...and if it had not been discovered when it was then we'd have been burned up. (This happened at the time when Saga magazine was doing articles about me and Dr. Zakow, of the U.S. Government, came to our apartment and investigated my work and warned me that the U.S. Govt. would have me killed considering my work with UFOs and attacking NASA with psi-force). Several days later Astronauts Grissom, White and Chaffee were burned up on the pad at NASA. My UFOs telepathd and explained that they had caused it because of my great value to them, the UFOs, and because of the U.S. Govt's effort to assassinate us. (There were two other blatant attempts to murder me at that time on the streets...but I am pointing out the fire connection.) I passed along this information to the scientists that I was dealing with at that time.

(2) In 1969 I was in a court-reporting office in Norfolk, Virginia, and Apollo 12 was just getting ready to lift off at NASA. The court reporters were all listening to the proceedings on the radio. I called out to them: "How would you like to see me hit that spacecraft with lightning?" They all stopped talking and stared at me incredulously. Minutes later the spacecraft lifted from the ground then all was pandemonium at NASA. One of the astronauts aboard the spacecraft, still ascending, said to ground control "We don't know what happened but it seems that we were struck by lightning!"

(3) This last November, 1985, my UFOs telepathd to me unexpectedly one night and told me that (1) they intended to cause an earthquake on the West Coast 8-10 on the Richter Scale, and (2) they were going to explode a space shuttle of NASA while it was in action. They were going to do it because their request for a ten million dollar UFO Base from the U.S. had not been taken seriously...also that for a long while they had deliberately harassed shuttle flights, ruining experiments etc., but not harming the astronauts. They had finally decided that they would have to destroy astronauts to get the U.S. Govt's serious attention. I explained all this to my son, Beau...then picked up the phone and called Dr. Mishlove in San Francisco and gave him the message. The result, of course, is in this file. You probably saw it yourself on TV.

Re (2) above...I have an affidavit signed by all the court reporters who were present attesting to the validity of the matter.

Re (3) above...I would not be presumptuous enough to ask Dr. Mishlove for an affidavit to that effect, for my files...but if anyone is interested in checking it out they can contact Dr. Mishlove. I do not believe that he would double-cross me and lie about the matter as Dr. Hynek did some years ago. *I think that Dr. Mishlove is a finer scientist in every sense of the word, than is Hynek. And I could know - have worked with scientists.*

After the shuttle exploded my UFOs telepathd to me (I was as saddened and shocked as anyone who witnessed the event) and explained why they had deliberately chosen this particular flight and shuttle. Follow this now.

p. 4 -- "It's a setback. The tragedy is that so many kids were watching
