SPECIAL Contact Letter!

NOTICE: (Am starting with all this 'fanfare' because of the drastic, dynamic, volatile nature of this special Si communication!)

The Si's communicated with me, and told me to hurry, to get this message to the government, to scientists, and to the people.

They are erecting a deadline. Setting up a deadline for action.

If their representative...me...should not be hired by one of several rich men now contemplating the action..(thus making it possible for the Si's and myself to help and aid mankind as a wholeXXX...should I be hired, that is)...then the Si's announce that they will do the following, in the near time ahead:

ATTACK AND DESTROY THE U.S. STOCK MARKET AND THE U.S. ECONOMY.

They say...if our country is in trouble now financially, at least "the house is still standing". Shaky though it may be.

They, the Si's, will bring our house down around our ears. They will make the United States go totally broke, everywhere at once. Starting with our stock market.

Should I be hired, and thus be enabled to work with them, the Si's, to help the U.S., plus mankind as a whole...in that event the Si's will use the same powers they have to rescue the United States from its present difficulties.

For those of you Contacts who might be skeptical of this letter...let me remind you...that some years ago, when the East Coast was gripped in a terrible drought...I announced that the Si's would end the ~~XXXX~~ six-year-long drought, bring the rains, and help the East Coast, just as a demonstration of their powers. Following my announcement, by written letter to Contacts and over the Jack McKinney "Night Talk" Radio Show in Philadelphia, and over the "Talk of Philadelphia" Radio Show...the rains came to the east coast, and the six-year-drought ended.

The Si's mean what they say. They do not "speak with a forked tongue".

Since I have had no word...from the 3 rich men contemplating hiring me (at a salary lower than that of good pro basketball players)...then it might very well be that this letter you are reading now...will signal the end...of America as we have known it in our lifetime.

Sincerely,

Ted Owens (PK Man)

GOVERNMENT PHYSICIST DISCOVERS

Unidentified Flying Objects are using an isolated island in the Bahamas as a base for monitoring U.S. space flights and for a staging area to collect human "specimens" from earth.

Dr. Jonathon Wright, National Aeronautics and Space Administration physicist, revealed this startling news at his Nassau hotel last week after returning from a 3-month research cruise through the outer islands.

"There is no question about it," Dr. Wright said, "we have absolute proof that UFOs periodically land on a tiny shoal about 50 miles off Grand Cayman."

Dr. Wright heads a special-priority UFO investigative department in NASA. He also participated in the UFO study carried out for the air force at the University of Colorado two years ago.

The NASA team was drawn

to the Bahamas shortly before Christmas when two more ships and an airplane mysteriously disappeared in an area called "the Bermuda Triangle."

Over 120 ships and planes have vanished so far in a triangular area of ocean between Bermuda, Miami and the Bahamas.

"We've wondered for years what was going on in that area," said Dr. Wright. "At the Cape Kennedy control center we would get strange electronic blips during launch times. Our instruments showed that they came from this area."

"Then there were all the famous disappearances of airplanes and ships in the triangle. On top of that we had several accounts of UFO sightings from some of the islands."

"So when the two ships and the plane disappeared in December, we decided to have a look," he continued. "We took a small boat full of electronic equipment out to one of the small islands and sat and waited."

After two weeks Dr. Wright reported that his research team sighted three bright, circular objects descend toward the horizon not too far away.

Then, a week later they took off again and disappeared in the night sky. Dr. Wright moved his small boat in for a closer look and two weeks later the three objects

DR. JONATHON WRIGHT claims he has found UFO base in Bahamas

"This time we were very close," he reported. "We could see two small windows in the tiny craft. The UFOs themselves were shaped like tuna fish cans and could hover and fly sideways."

Dr. Wright says his team landed on the small island and walked toward the strange machines but he won't say what he saw when they arrived.

"Someday I suppose the full report will be made public," he said, "but not yet. All I can say is when we got very close to the objects, they took off with incredible speed and headed into the sky in the direction of Bermuda."

Dr. Wright says there is a definite link between the mysterious radio signals received at Cape Kennedy and the disappearances of ships

planes and pleasure craft in the Bermuda Triangle.

NASA isn't saying too much about the radio signals but anyone can read about the vanishing planes and boats, all of which were lost in the month of December in different years.

On December 5, 1945, six navy planes flew out of Fort Lauderdale and vanished without a trace. A Mitchell bomber with 13 men aboard was sent after them, and it too disappeared after calling in that they were lost.

The navy moved an aircraft carrier into the area and 50 planes searched for remains of the lost aircraft but found nothing, not even an oil slick.

In December 1948, a DC-3 with 32 passengers aboard disappeared in the triangle and in December 1949 another DC-3 with 24 people aboard vanished. Not a speck of wreckage was found from either plane.

In December 1957 a racing yacht vanished south of Bermuda.

In December 1963 another DC-3 disappeared between San Juan and Miami.

In 1967 a cabin cruiser vanished without a trace

just north of Grand Cayman.

The most recent disappearance involved two more yachts and one small plane in December 1970.

Dozens of search planes failed to find anything at all in the exact area from which the yachtsmen and pilot made their last radio calls.

Strangely enough, all UFO sightings in the Bahamas were recorded during December!

MIDNIGHT located a native of Gand Cayman Island who saw a bright light descend to the horizon the night the small plane disappeared.

"At first the light looked like a very bright star," he said, "but then it started moving back and forth, getting lower and lower. It stayed just above the horizon for about 10 minutes and then disappeared."

"I watched and half an hour later it rose again and seemed much closer and brighter. Then it quickly went straight up and out of sight."

Dr. Wright concludes that "extraterrestrial creatures" from outer space have decided to watch earth's inhabitants from a safe place which is still

close to one of America's important scientific bases.

"The Bahamas is perfect," says Wright, "because these creatures can watch Cape Kennedy and electronically record everything that happens there. And they can also gather earth specimens by capturing planes and small boats which venture into the Triangle."

Dr. Wright feels that these creatures have been watching earth from the Bahamas for many years.

"Now they've created the strange mystery concerning the Bermuda Triangle and it is very valuable to them."

"They can continue capturing the occasional ship and plane each December and make it look like a strange natural phenomenon so people won't get frightened."

"People will just say, oh well, there goes another plane in the Bermuda Triangle. It's very convenient."

large mother ship, or UFO, hovers several hundred miles above the Triangle and watches everything that goes on there. Then, when there is going to be a moonshot or something of interest, it sends down the small reconnaissance UFOs.

"Those are the ones we saw on the island and, based on what they were doing, we can say that they were monitoring our January 25 moonshot.

"They are very careful about the whole thing so as not to panic the people on earth. They only watch one scientific development, our moon program, and only take one or two specimens every 2 or 3 years."

Dr. Wright won't explain exactly how he thinks the ships and planes disappear, but he hints that the huge UFO mother ship comes down to the surface and actually lifts whole yachts out of the water, or flies alongside a

wouldn't arouse suspicion since small planes and yachts are always disappearing.

"People don't get too upset because few people seem to care when a rich person disappears in his private boat or plane. That's just one of the risks of sailing or flying.

"And these people make perfect specimens for the space creatures to study. They are usually quite intelligent men, business leaders, important officials and so on.

"I can tell you one thing," said Dr. Wright. "I'm never going back to that island in a small boat and I'm never going to fly across the Bermuda Triangle."
