Dear Ted...

Am sure you must have thought we abandoned the idea of a lecture for you in this area..not so!!! Have simply been swamped with things and arrangements made prior to that plan and so have not had even a minute to get shored around. Am inquiring now into a large auditorium and hope to know more of the capacity available within the next several days...and the price...for that is important too...when most of us are just small time operators. But I feel certain that when the time is right the right one will simply 'pop up'...at any rate am not concerned about that...it is simply a matter of right timing....

When we have a definite place to house your lecture and know where we stand on all financial matters, shall send you a chck for the amount you stipulated with a definite date and alternate date, and then we can go to work from there full steam ahead.

I thoroly enjoyed your letter concerning the disks...and think you are right in requesting the monies for them, for it is a known fact that for every flow you give out, there has to be a return one...the circle has to be completed, or YOU get done in...it does not neccessarily have to be in hard cold cash, but it must be returned to its source in some manner, added unto.

Thought you might be interested in something the Indian Chief told us while he was here and some things that sort of tied in...they may NOT be for you, but you were there at the top of my head when he was relating them. He told us of a Warrior Chief who would be coming soon, or who perhaps had already arrived, who would control the weather elements, and would be of the Rainbow Tribe...would wear a rainbow bonnet, as he put it and who, as he said, might appear to man as lacking in compassion and love because he would do what had to be done to to fulfill his purpose. As he spoke of this Rainbow Tribe and Warrrior Chief, you just automaticly floated in my thoughts and then, when my daughter informed me upon arriving home that when you were talking to me on the phone that day she kept seeing a rainbow around the phone and above my head and in her own head...so...doesn't that seem sort of intriguing????

Do write me and keep me informed of your whereabouts and your doings...and.. enclosed is a check for one of your disks...'charged' I hope..by you...and your upstairs friends so that may use it when need it to connect in arranging for your lecture..okay???

Thank you...
and..Bless you

Sincerely
Madeline Teagle
