Gentlemen:

Several years ago...as some of you remember...it was predicted that forty million people would die in India...because of a terrible killer drought that had been going for two straight years...and there was no food. I went on radio and TV in Philadelphia, and stated that I would ask the Si's (UFO intelligences) to give India the rain it needed so badly, give the people there food, and save the forty million people. And, I added, I would do it to honor two people who had helped me in my work with documentation...Pat Shannon and Zelda. Shortly thereafter the rains came in India...and the people had more food than they could harvest... and the forty million people were saved. This was written up in the New York Times as some kind of miracle. (And I had it documented, also, by my contacts.)

Now I am telling you...a bit belatedly...that I have a special project going...to obtain the release of our POW's in North Vietnam. And I am doing this in honor of George Delaven of Mt. Prospect, Illinois, a wonderful friend of mine who has helped me when the going was tough and rough.

Am ~~Ahlay~~ employing a "shotgun approach"...i.e., using many of my 150 psi-force mechanisms...to get our POW's back home with their loved ones safely...by this spring, or this summer.

You can say "well, the U.S. has been working on this for a long time." My answer: yes, and the U.S. hasn't succeeded. Also the U.S. is bombing the hell out of the North Vietnamese...and as long as it continues, the POW's will not be released without some kind of miracle.

It is my job (with the Si's) to provide that miracle...in a most unique way.

We shall see. Meanwhile, I work at it.

Ted Owens (PK Man)
Box 48, Cape Charles, Virginia 23310

PS...remember this man who just was released by the Vietnamese, lately? I began my work just before his release. Now...to get them all out.

Owens
