The Editor
Washington Post Newspaper

I phoned your paper long distance three times, last week, re my work with UFOs. Your man there was quite understandably skeptical. Am enclosing some old xerox material to give you an idea of who and what I am.

What I am proposing now...is to give a "miracle" demonstration for the Washington Post. But first...let me establish some credibility with you.

"Occult America" by John Godwin displays my photograph and discusses my work; hardcover book. "Revelation: Divine Fire" by Brad Steiger, discusses my work; hard cover. "UFO Trek" (Trek) by Warren Smith, pocketbook, has an excellent chapter on my work. "The New UFO Sightings" by McNamee and David Graham, Warner Paperback, has a good chapter on my work. "What The Seers Predict For 1971" by Brad Steiger and Warren Smith, Lancer paperback, contains my 1971 prediction that President Nixon would be forced out of office. (Each year thereafter a chapter appeared in these books containing my predictions, ending in "Predictions For 1977" by Warren Smith, Award Occult paperback, chapter on my work. "The Strange World of Brad Steiger" by Brad Steiger, Zebra paperback, discusses my work. "The UFO-Nauts" by Hans Holzer, Fawcett paperback, discusses my work. Other books as well, but these will give you an idea. In "Psychic Magazine" Volume VII, No. 6, Jan./Feb. 1977, my picture appears with the photos of Prof. Tenuaeff; Prof. Hans Bender; Sir John Eccles; and Dr. John Hasted...all world-famous scientists in the field of parapsychology...and the accompanying story describes my being invited to speak before some of the world's key scientists in London, England, at the Parascience Conference there in 1976. (I was invited back again to speak before the scientists in 1977, and attended.) Address: Psychic Magazine, Box 26289 Custom House, San Francisco, California, 94126. All of the above experts, and books, refer to my position as one of the best psychics not only in America, but in the world. Also I am a member of Mensa.

A scientific report was done on me by scientists on the west coast, and a copy can be obtained for \$7: Washington Street Research Center, 3101 Washington Street, San Francisco, California, 94115.

Now I am going to demonstrate to the Washington Post...and hopefully to the American people through the Post...how UFOs can control any part or our country, at any time. (In the above-mentioned scientific report is a discussion of how I, and UFOs, controlled the San Francisco area after being challenged by scientists to do so.) The entire West Coast from June 5th on through September...will have freakish power blackouts; lightning attacks and storms unusual at this time; and many UFO appearances. *The West Coast will, in effect, be under the control of UFOs for this period of time. If you are wise, build a file on this, with this letter heading the file.

If you have any questions relating to this, do not hesitate to phone me, or write.

*Plus EM anomalies.
