TO ALL CONTACTS...

Bad news. While my work has gotten more powerful...half a dozen miracles in the past four months plus...my money has dwindled away...from the cost of xeroxing, stamps, envelopes, etc. Am now B R O K E.

So from now on will be forced to send out only a mere handful of Contact Letters...to six scientists, couple of lawyers, couple of authors...and that's it.

When I asked for some financial help...believe me I wasn't kidding. I didn't get a sou from anyone.

There are a few more...Kvasnicka, Goodman, Delaven, etc., (they know who they are)...who have helped me so substantially that they'll automatically get all Contact Letters, always, no matter how I have to get it up.

Sorry about this, my friends...but it takes gas to make a car run, and it takes money to buy the gas. And money I ain't got.

Best.....
