Dear Ted:

Forgive me for writing you, concerning many problems. Knowing that you have other problems pertaining to so many other people. I have indomitable faith in you and the S.I's. My letter of grave concern is pertaining to the people of the drought area in Africa. As you know 13 million Africans men, women, children, and cattlt are affected by this drought. Realizing the grave situation that affected the lives to Biafra in 1968-69 of mass starvation, when the federal government of Nigeria invaded Biafra in their civil war. And now another mass starvation that is threatening $\frac{1}{2}$ of the drought stricken area, which consist of have of the population of Black America.

Also realizing the situation of many starving and dying African children, because of the attitude of the federal government of Nigeria's civil war. I was inclined to send a letter to the President of Senegal, Leopold Sedar Senghor, which I did. Asking him to contact you, the only human on this planet, that could resolve the drought problem. I told him in the letter that it was not up to you or me or the higher powers to resolved the problem in Africa. But it was up to the higher powers(S.I's) if they wish to do or not to do for their own reasons. In my letter to President Senghor I stated that he could also send a copy of the letter to you. I told him that I cannot speak for you or the S.I's in any given case. But I would like for the resolvement of this problem attracted to the World attention that you and the S.I's and the powers of their dimension do exist.

With all good wishes for Peace and Love Profound, I am,

PH.(415) 451-4412

Sincerely Your Friend

George W. Gibson
