Warren Smith and Brad Steiger...

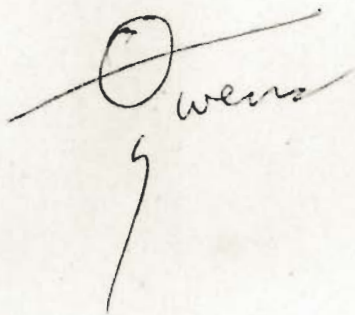

The SI's have told me...that the "Rich Gang" who are trying to control the world (and have been pulling the strings on the Watergate puppets who have been caught)...have a private bank! They do not trust even Swiss banks...and these ultra-rich multimillionaires and billionaires have pooled their monies...on board a water-borne yahht (yacht) which rarely docks (for obvious reasons).

They literally have billions in cash and gold stashed away on this yacht!

Faceless emissaries come and go...to the yacht...used as errand boys to bring and carry out monies for their nefarious schemes on a global basis.

For your interest...since I described the "Rich Gang" on live radio by phone hookup to Dallas, Texas...I have been harassed and subtly attacked and blocked in ways I have never before experienced...and am quite sure that the Rich Gang will attempt to have me ruined or murdered as soon as possible. If they are successful in near time ahead...then you will have had my hottest prediction yet! However...I really do hope that this prediction falls within the 8% of my psi work that I miss on. (Have been 92% accurate thus far in all departments.)

Best....

 Owens
