

Oct. 28, 1976...dear Millie...do you realize...that you are responsible for ending the worst drought in England since records were kept? And you saved England's economy from being utterly crushed...by drought effects. Because only because of your help was I able to obtain enough power (by going to Scotland, England, France, Egypt...to renew my powers and be instructed in how to proceed) ...then go to England and bring in the rains...and floods. Had a letter from Colin Wilson, famous English author, yesterday...who writes: "I was amused to discover that while we've been in Italy, England has been having tremendous floods, and that reservoirs that were not expected to fill up until the end of the winter are already overflowing! I must confess that the "coincidence" has made me very thoughtful..." Colin was present at the Conference while I was there and heard my lecture...and is going to do a piece on my work in his new book coming out. I wanted to xerox his letter and include it in the report going out...but my xeroxing was cut off last week, so I cannot do so. My xeroxing was cut off. The car has gone completely dead...leaving me on foot. I am completely without funds...and need several hundred dollars immediately to cover bills and mailing out the report (which is finished; am just now getting it put together. And I've heard that soon we will be forced to move out of this house (without a car to go; without monies to go; and with nowhere to go.) In short...am just about ruined. To operate the way I need to operate, I need \$800 to a thousand a month, with no letdowns. The way it is...I go for weeks without more than \$10 or \$20 coming in...and my only source of income is that mailbox! We have reached the end of the string... Teddy has been sick for a week. Very sick. God. It's much the same thing that I was sick with for months. Remember, I could not taste food and had absolutely no appetite for months. Had to force myself to eat a sandwich each day just to keep alive. Now Teddy can't eat. Hasn't had a bite for 5 days. Took him to the doctor, and his white cell count (blood) is 15,000 instead of the norm, 10,000. When we went into the doc's office I told Dr. Hardman what to look for...he did...and I was right! An abnormal white cell count. Have to take him back next week. Beau and Martha both are being seen by a psychiatrist every week, because they are both haywire. Now, this is utterly fascinating, Millie. Yesterday Beau was patting my head and shoulders, and said: "Dad, there's a big bump on the back of your head... and that bump on your back is red-hot!" I felt the back of my head...and there is a large bulging bump there. I ran my fingers down the back of my neck...AND THERE IS A LARGE HUMP THERE THAT NEVER BEFORE EXISTED! (Pardon the typewriter...it also has broken down.) And it exudes tremendous HEAT. What in the world is going on with me, I do not know, but there is no doubt that the SIs must have done some drastic things over in Scotland, England, and perhaps in Egypt! Received your world atlas this morning...just exactly what I have been needing, Millie. Thank you so much. I like your perceptive idea re the SIs leading me to sources of high magnetic energies. Perhaps we can carry the equation even farther. The map you sent... showed that indeed...where I have journeyed...and intend to go, also...are crossroads of earthquake fault lines...and indeed there must be tremendous EM energies at those points. PERHAPS I NEED THOSE HIGH EM CHARGES FOR THE SI TALK OF MY BRAIN! Also...I was sitting, looking at that map (which is in the outgoing report to U.S. contacts and to scientists overseas who should get it) and the SIs communicated and pointed out that I had gone north to Scotland, England...east to Egypt...planning to go south to Yucatan. God bless you...

Owens
