

Each "miracle" is a gem of its own. One does not repeat miracles like backing up a tape, and replaying it!

Saturday, July 22, 1978

Dear Jeffrey:

Thank you for sending the letter from the editor of Harper & Row Publishers. Amusing.

Let us hope that he is indeed "persuaded" to publish the book.

What irritates the hell out of me is...after doing hundreds of miraculous demonstrations with the help of my UFO friends, and documenting solidly...there is always a newcomer who says, "So you have brought about hundreds of miraculous happenings...but what have you done lately? Now hit this bridge with lightning..."

Fooley.

As you now know...the SIs have put me back into harness again...and it do feel good! To sum up: After I moved here to Silverton the local paper did a story on me. I had told the reporter, Sharon Jensen, that I would CAUSE powerblackouts on the West Coast; freakish, unusual storms with lightning attacks; and UFO appearances...as well as EM anomalies. She chose to print it that I PREDICTED. Ha ha. Well.....

Anyway...so far power blackouts have occurred in six states since that article, that "baffled" the experts (see your file that I sent you.) You got two blackouts in one week where you are, San Francisco area.

Furthermore...a UFO came over Silverton here, after that article...and the above reporter interviewed the two respected, elderly women who observed it. (You have that file also.) The reporter came to my house yesterday and told me that people in two adjoining towns had also seen UFOs since that article.

Last Friday it was red hot here...had been for a week or so...so while I was picking up a six pack of beer at "My Place" I told the manager there, Nita Chambers, that I would go to work on the sky immediately, and communicate with my UFOs...to bring immediate rain and coolness over the weekend. Now, at that point the Weather Bureau projected a hot weekend with no rain in sight. Uh ~~KKKK~~ huh, sure. I went to work and had pouring rain and lightning bolts within hours...and it lasted over the entire weekend. (You have by now the file on that.)

The local paper then indicated that they would like me to do yet another demonstration ~~X~~ so the SIs came in (like you do sometimes on your recorded phone announcements) and said that they would produce a sizeable earthquake on the West Coast within 15 days. "Friday, July 21, 1978...Dear Mrs. Jensen (reporter for the Silverton Appeal newspaper)...You indicated yesterday that your newspaper would like for me to give another demonstration of SI and my powers. Very well. I will ask my UFOs to cause a sizeable earthquake on the West Coast (not to hurt anyone) within 15 days. I will expect a written confirm from you, if am successful.

Signed, Ted Owens (PK Man)"

Hope things are going fine for you...and again, congrats on your oncoming marriage!

* I accepted and sent them the note, in quotes.

Ted Owens (PK Man)
