To P. Spunkle, etc., all
well documented. For
instance in Phila. alone
in the late 60's I proached
out power in 5 states on
East Coast; made hurricanes
pop up; attached the Stock
Market to a loss of 50
billion; attached U.S.
military exercises; etc.
Affidavits from lawyers
on those. I suggest
Bernstein fly here... see
all this, choose, borrow it,
take it back for xerox
& return it. Dynomite
stuff! Owen

In Sept '76
in London, Peter
Maddock told me
that first they'd invited
him choice as perhaps
wanted a bundle. Their second
psychic to be invited was me,
Bernstein would like to mention
Ted & but he
told
PK Man. that.

Gentlemen:

I saw Bigfoot...on the night of July 19th my 2 sons and I decided to camp in a deep ravine near Trinity River in northern California. A strong urge came over me to do this. We scampered down the hillside and found an overhanging cave close to the water and bedded down for a good night's sleep. We were soon startled by heavy tramping and crackling of breaking twigs. I grabbed the flashlight and turned it on and there was Bigfoot...three of them...a large one...a medium size...and a tiny one. A male, a female and baby...a family, no doubt. They had a beard and the hair came to a v...shaped point over the bridge of the nose...I should say to a point between the eyes. Nose was flat with slant eyes that glowed fiery red in the dark. Also as I lay awake on guard...I counted 28 U.F.O.'s...some yellow U.F.O.'s...some star U.F.O.'s, every kind of U.F.O. there is...on display...a beautiful sight to behold !!! I signalled them with the flashlight and they blinked in reply. Also another curious thing...there was a huge machine...big as a house with glass panels on all sides. When I turned my flashlight on it...the machine would move and pulsate. Amazing! The next morning Bess's right arm had 2 round like welts with red holes in center. Little Teddy is covered with red spots...similar in appearance to measles spots. The U.F.O.'s had all of us last night !!

The following day the U.F.O.'s communicated to me...

They set up 3 sun U.F.O. Hot Grids across the entire United States. One over the western third of U.S....one over the middle U.S....and one over the eastern third of the U.S. These Hot Grids working in unison with Fire P.K. and poltergeist Phenomena will dry up the U.S. to a pulp, or should I say literally a dust bowl! And ONLY TED OWENS...P.K. MAN CAN TURN THEM OFF !! What a price the U.S. is paying for their insults and rejection of U.F.O.'s and their representative ...Ted Owens ! THE BATTLE LINE IS DRAWN ! YOU KNOW THE TERMS !
